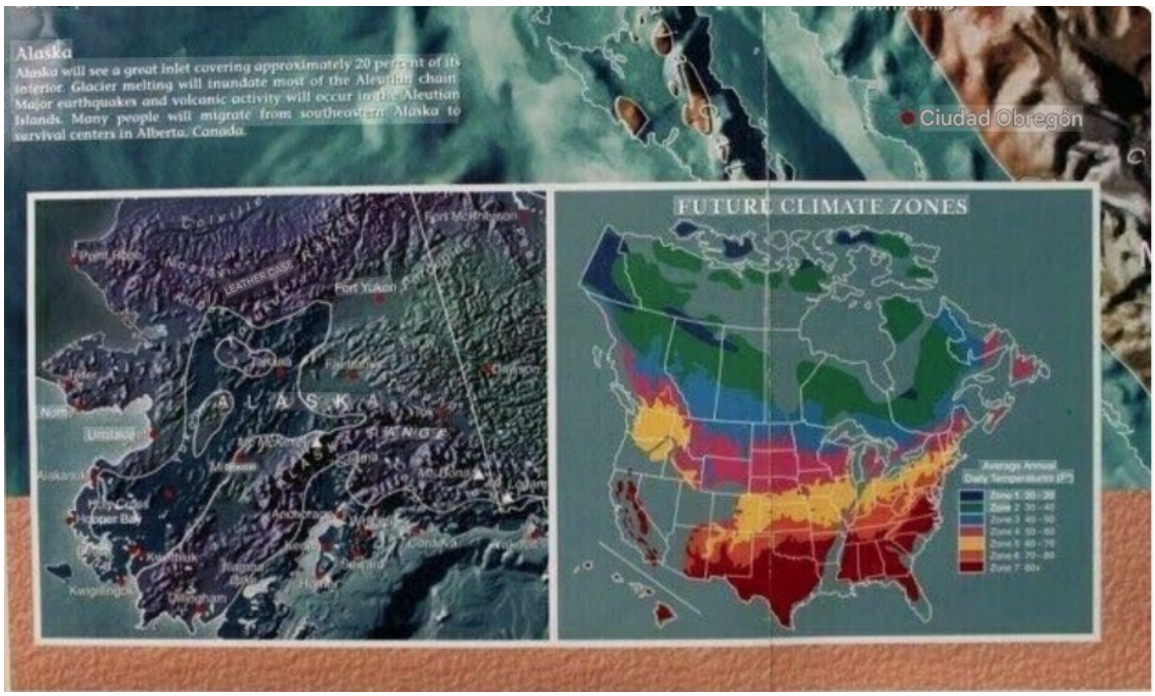
GLOBAL NWO PLANS BEFORE AND AFTER APOPHIS AND THE POLE SHIFT 2029



Alaska
Alaska will see a great inlet covering approximately 20 percent of its interior. Glacier melting will inundate most of the Aleutian chain. Major earthquakes and volcanic activity will occur in the Aleutian Islands. Many people will migrate from southeastern Alaska to survival centers in Alberta, Canada.

The provided image displays a portion of a "Future Map of North America" created by futurist Gordon-Michael Scallion, which depicts projected geophysical earth changes.

- **Projected Physical Changes:** The map illustrates a speculative future where a massive inlet covers approximately 20% of Alaska's interior due to glacier melting.
- **Seismic and Volcanic Activity:** The text predicts major earthquakes and volcanic activity in the Aleutian Islands, potentially causing significant migration from southeastern Alaska to "survival centers" in Alberta, Canada.
- **Climate Zones:** The chart on the right side of the image specifically highlights "Future Climate Zones" across North America based on projected average annual daily temperatures.

WHAT IS THE DEEP STATE NWO ORDER DOING TO SURVIVE WHAT IS COMING

WHY DOES THE DEEP STATE NWO WANT EVERYTHING COMPLETED BY 2030?

WHY IS THE NORTH POLE THE CENTER OF THE UN EMBLEM? WHAT DID THEY KNOW THAT THEY NEGLECTED TO INFORM THE PEOPLE ABOUT?

The United Nations emblem uses a projection map which is centered on the North Pole. This projection map was chosen in 1945 when the UN was founded and the Arctic was strategically irrelevant.

IT LOOKS LIKE THE UN KNEW ABOUT A GLOBAL CATACLSM THAT WAS PROJECTED TO HAPPEN IN 2030.

Today the North Pole has become the world’s most contested zone. The center of the UN’s map is precisely the terrain that every major power is now scrambling to own.

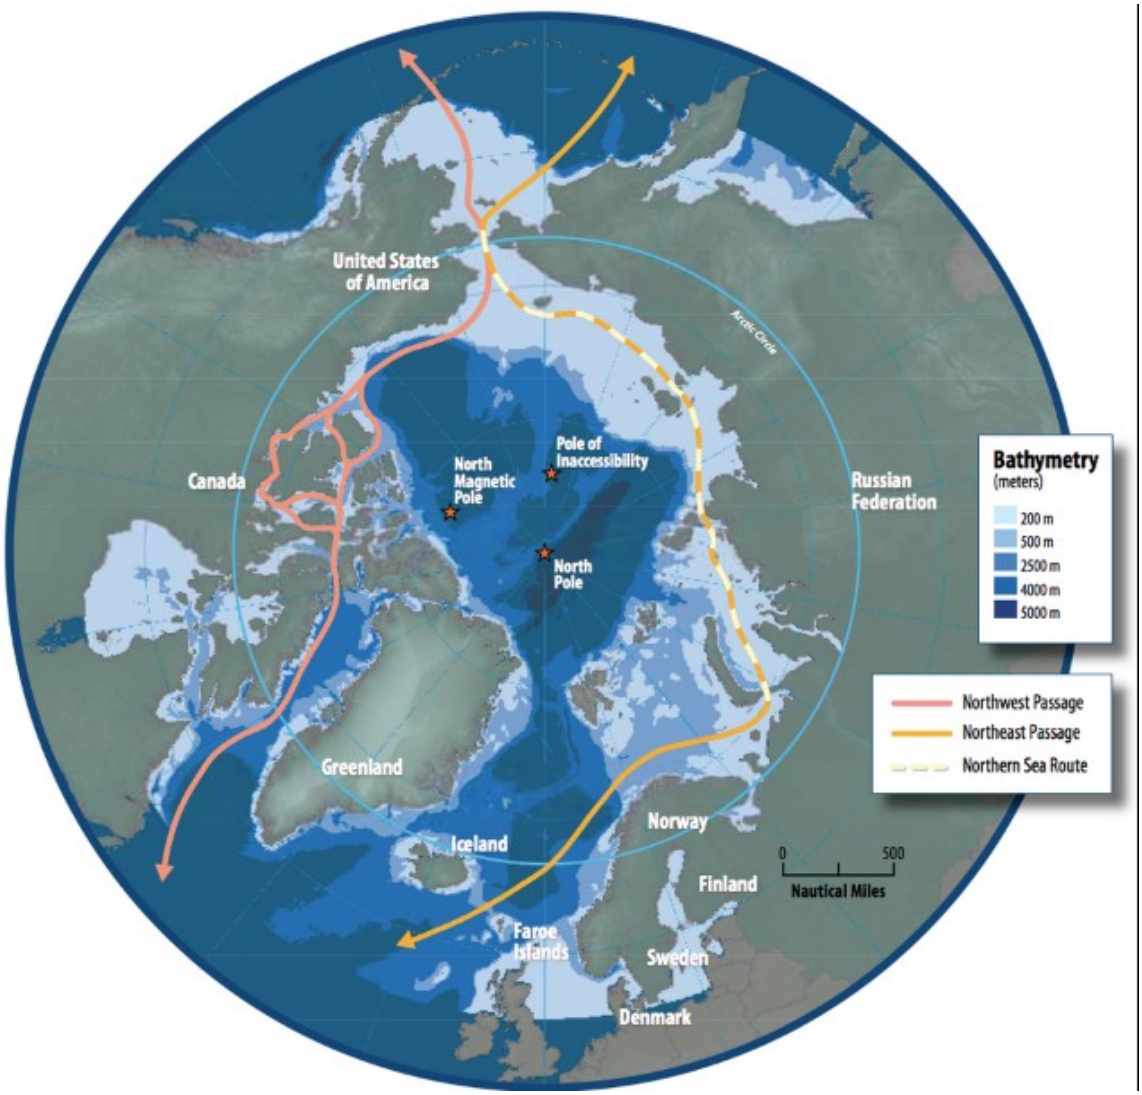
NEW SHIPPING ROUTE

The Russian narrative has been telling us that a **coming Pole Shift** will thaw parts of Siberia and the Arctic coastline, of which Russia controls approximately 53%. Those of us Truthers, Nationalists and Patriots that have been warning about this coming global cataclysm's coming have been ignored and called CONSPIRACY THEORISTS.

THIS NEW NORTHERN ROUTE WILL SET RUSSIA UP TO SURVIVE WHAT IS COMING IN 2029.

This Northern Sea Route (NSR) saves 15 days of travel compared to the Suez Canal route. Russia has already invested over $35 billion dollars developing this area for their future Arctic civilization while grabbing up land that t Ukraine took from Russia in the meantime..

the goal: 20 million tonnes of cargo annually by 2030



The narrative in the United States, which has a limited Arctic footprint compared to Russia, has been more desperate. Its story began as man-made "global warming," SCAM now simplified to "climate change" was spread around the world. The U.S. is hurrying to meet a 2030 deadline, and is looking to acquire Canada and Greenland which would give it the ability to dominate the Northwest Passage, the alternative Arctic trade route to Russia's NSR.

The European Union has expanded NATO to include Arctic states, Sweden and Finland. In January 2025 the EU established the European Polar Coordination Office (EPCO) in Sweden's Arctic region. It looks like that futuristic moved may have placed the EU in the lands that will remain above water after Apophis and the Pole Shift happens. Yet they are not telling the rest of Europe why they are really doing this. The DEEP STATE IS DETERMINED TO MAKE SURE THEY SURVIVE WHAT IS COMING.

China's Arctic engagement can be found in their "Polar Silk Road," an extension of the Belt and Road Initiative into polar waters. China has declared itself a "near-Arctic state," and has been investing in Russia's Arctic projects in exchange for access. In 2025, it has completed a record number of container voyages through Russia's NSR, and designates the Arctic as a **"strategic new frontier."**

We are living through the most consequential reorganization of world power since 1945 and the **FUTURE** geological

advantage for all nations is clearly **centered in the Arctic region**.

The new multi-polar world order is forming and with it, a new financial system is being built. A new world order in which energy, food, and metals become the new reserve assets. Each of the major players are constructing **financial systems designed to function independently as well as internationally**.

AMERICA'S MONEY CHANGING SYSTEM

In the USA there is Hedera's digital Hash-Graph, which is governed by institutions including Google, IBM, Boeing, LG, and FedEx. Hedera is not a replacement for the dollar; it is a faster, more programmable upgrade of the US Dollar system, that works along with Stable coins such as USDC. I do not know what this means and still don't after I read this: USDC (USD Coin) is a crypto currency stable coin issued by Circle Internet Group. It is connected to the United States dollar, and is distinct from a central bank digital currency (CBDC). I do not understand these money-changing systems but it does look like our money will not be connected to the Central Bank DEEP STATE CARTEL that has been running the show for decades. The Jackal Islanders are going out of business so to speak. Go Trump!

CHINA'S MONEY CHANGING SYSTEM

In China there is CIPS (Cross-Border Interbank Payment System), which was launched in 2015 as a SWIFT alternative. But unlike SWIFT, which only handles messaging, CIPS handles actual clearing and settlement. There is also the Digital Yuan, which has already reached 2.25 billion wallets, more than China's entire population. Then there is mBridge, China's most ambitious project, a multi-CBDC platform developed with Hong Kong, Thailand, and the UAE allowing direct settlement between digital currencies.

RUSSIA'S HAS THE DIGITAL RUBLE AND MIR CARD PAYMENT SYSTEM

In Russia there is the Digital Ruble and the Mir card payment system which has issued nearly half a billion cards and processes two-thirds of all domestic transactions. SPFS, System for Transfer of Financial Messages, is Russia’s SWIFT alternative and is now connected to 557 financial institutions in 20 countries.

SOON THE WORLD WILL SPLIT OFF INTO 4 SEPARATE LANDMASSES AND MONEY SYSTEM

There are four emerging Blocs in this multi-polar world order, the American Bloc. Trump wants to include Canada as part of America so that America and Canada together will be known as a
one Country. Trump wants to include Latin America, and Greenland.

The Middle East is being fought for right now. The Russian Bloc is looking to include much of its former Soviet states as well as parts of Africa and the Balkans. The Chinese Bloc is looking to include South and Southeast Asia, as well as parts of Africa.

The European Bloc is looking to include the core EU and its surrounding Periphery.

BAD NEWS

What appears to be a series of unrelated events is more likely the controlled demolition of how the nations are divided today to a world where 4 major nation groups are running the show.

It looks like the different currencies will be routed through a pipeline of central banks and private think-tank institutions where all roads lead to the Bank for International Settlements in Basel Switzerland.

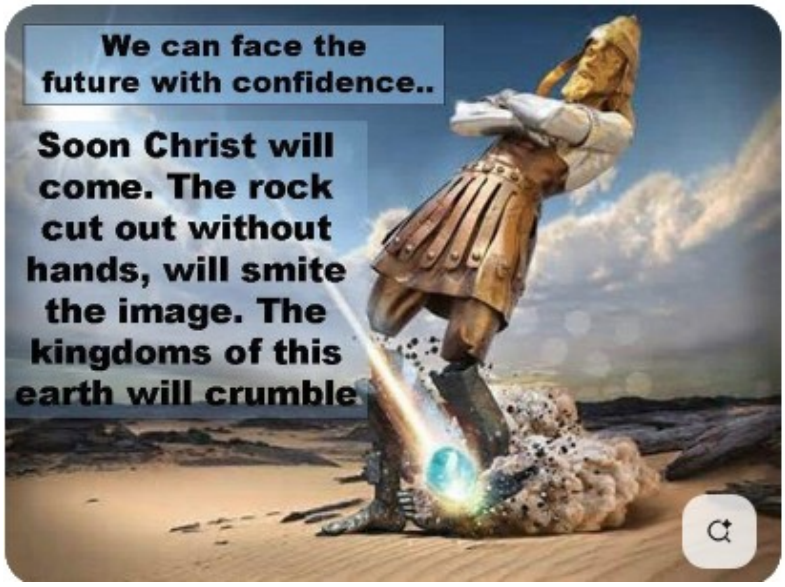
WHAT IS SCHEDULED AND PROPHECIED TO HIT THE EARTH IN 2029. IT LOOKS LIKE IT IS APOPHIS THAT THE DEEP STATE IS RUSHING TO GET READY FOR THAT COULD CAUSE CATASTROPHIC EVENTS SUCH AS A POLE ROLL OR THE SHIFT OF THE EARTHS TECHTONIC

PLATES. EARTH QUAKES, VOLCANISM AND THE LIST GOES ON?



We can face the future with confidence..
Soon Christ will come. The rock cut out without hands, will smite the image. The kingdoms of this earth will crumble

Jesus seemed to tell us that when we see these signs happening today to head for higher ground away from shorelines prep and then go inside and shut the door.

If Apophis collides with Earth, it will generate eight times the explosive force of Russia's Czar Bomba, the single most physically potent device ever deployed on Earth, the most powerful nuclear bomb tested, and the largest human-made detonation in history.

But we will have to wait until 2027 to find out if Apophis has been knocked off course because it is currently out of sight due to its close proximity to the sun. When it does reappear, astronomers will be better able to calculate the odds of potential change of course between then and 2029, Weigert wrote.
